Medical Assisting	20	20	100%
Nuclear Medicine	12	10	83%
Phlebotomy	18	16	89%
Radiography	42	39	93%

ALUMNI SPOTLIGHT

Érika Padilla-Morales,
Nuclear Medicine Technologist, UCSF
Board of Directors KPSAHS

Erika Padilla-Morales, a Nuclear Medicine Technologist at UCSF's Molecular Imaging & Therapeutics Center, is a non-traditional student with learning differences, who doubted her ability to be successful in college. Mentors and fellow students offered academic and personal support, ensuring her college completion while she maintained 4 jobs and commuted to and from class/clinical sites on her bike and via public transit. Erika graduated in 2016 and afterward completed an internship in radio-guided surgery in Barcelona, Spain. This experience cemented her passion to work within a teaching hospital environment.

Erika strongly believes in supporting patients both physically and emotionally through their diagnoses by embracing the intimacy involved with direct patient care. She believes compassion and hope are essential tools in patient care. Erika gives back to the KPSAHS community by being the first alumna to serve on the Board of Directors.

STUDENT SPOTLIGHT

Alexandra Aszklar
Medical Assisting
Summer 2021

Alex has known for a long time that she has wanted to work in healthcare even though she holds a bachelor's degree in English and Psychology. Alex's passion for helping others was ignited when a close family member and Alex both struggled with health issues. From this experience Alex knew she wanted to help others ensuring they were supported during tough times. This passion for healthcare brought Alex to KPSAHS and the Medical Assisting Program. Alex, a KP member, knew the college would be an outstanding foundation for the start of her healthcare career. Alex enrolled in the MA program in 2020 and will graduate in 2021. Alex states "I feel so lucky to be here today, with just weeks left of my MA program!"

PRECEPTOR SPOTLIGHT

Kent Lindorfer,
Radiography
Clinical Preceptor – KP San Leandro

Kent attended KPSAHS as part of the first evening class, graduating in 2007. After graduation he worked for five years at KP Oakland, then one year at KP Antioch, and then went on to KP Hayward. Kent's position was eventually moved to the new KP San Leandro, where he performs x-ray and fluoroscopy studies. Kent signed on as a preceptor when KP San Leandro began accepting students in 2017, and since then working with students has been one of the best parts of his job! Before becoming a Radiologic Technologist, Kent was a general contractor and worked in the construction trades for many years. In his free time, Kent enjoys hiking, gardening and playing the trumpet.
