

Anatomy and Physiology Online

Facilitator

You may contact a member of the KPSAHS Instructional Innovation and Digital Learning (IIDL) Department using this email: KPSAHS-academiconlinehelp@kp.org.

Course Description

This is a six week online only course. You can access the course at any time within the six weeks. It is recommended that you use a computer. You can try the course on your mobile devices, but it is advised to use tablets or computers because smartphones have small screen sizes.

This course has a facilitator that will email you updates throughout the six weeks. There is no actual instructor for this course because it is all online and presentations are pre created.

This course provides an overview of the anatomical structures and physiology of the human body. The course discusses each body system in terms of the major anatomical structures and functions and explains how each system participates in homeostasis of the body. In addition, the course discusses selected major pathologies, including disease definitions and causes, signs and symptoms, diagnostic procedures, and possible treatments. Finally, the course discusses common issues and changes that occur in each body system throughout its lifespan.

Course Outcomes

At the end of this course, students will be able to:

- Describe the organization of the human body
- Explain the contribution that each body system makes to homeostasis of the body
- Identify the major anatomical structures and the purposes of each bodysystem
- Explain basic physiological processes in each of the body systems
- Describe selected human diseases in terms of definition, cause, signs and symptoms, diagnostic procedures, and possible treatments for each of the body systems
- Describe common issues or changes that occur in each body system throughout its lifespan

Course Optional Book

Title: *Essentials of Human Anatomy & Physiology*

Edition: 12e

Author: Elaine Marieb

Publisher: Pearson Education

ISBN-10: 0134395328

If you would like a printed copy of your textbook to accompany these online resources, you can buy an unbound, three-hole-punched version of the textbook from the [Pearson Learner store](#).

Course Components

The *Anatomy and Physiology* course is made up of numerous graded and ungraded activities.

Graded Activities:

- Quizzes
- Final exam

Ungraded Activities:

- Chapter readings
- Dynamic Study Modules
- Activities in the Student Study Area

Certificate Breakdown

This course is for certificate only which means college credit is not awarded. Depending on which sponsoring organization you belong to, Ben Hudnall Memorial Trust (BHMT) or the SEIU Joint Employer Educational Foundation (The Ed Fund), the certificate options are below.

BHMT

- **24 Hour Advanced Certificate of Completion:**
Complete all lessons, quizzes and the Final Exam with a score of 70% or higher score.

The SEIU Ed Fund

- **12 Hour Certificate of Completion:**
Complete lessons 1-5 with a score of 70% or higher.
- **16 Hour Intermediate Certificate of Completion:**
Complete lessons 1-5 and any 3 other lessons of your choice (and take and pass the corresponding lesson quizzes at 70% or higher).
- **24 Hour Advanced Certificate of Completion:**
Complete all lessons, quizzes and the Final Exam with a 70% or higher score.

Certificate Download

You will be able to download your certificate about a week after the course ends. The certificate will have your name, hours of course completion, and date.

Online Etiquette

In the event that you correspond with your class facilitator or peers, be collaborative, *not* combative. Please proofread your responses carefully before you post or send them to make sure that they will not be offensive to others. Use discussions to develop your skills in collaboration and teamwork.
